Roca's Remedy for Pulmonary and Tubercular Consumption HAVING been appointed sole Agent for the sale of Don Geronmo Roca's celebrated Cure for Gonsempton, the public will now be put in possession of one of the most extraordinary remedies extant for what has heretofore been considered an incurable disease. I have the more readily undertaken the agency, from the fact of its extreme simplicity—being an outward application, the action of which is seemingly miaculous, and its having none of those attributes which make up the numerous compounds now in general With the utmost confidence in the success of this remedy, which has heretofore been used in private practice with great success, as is shown by nomerous letters and certificates, is now offered to the public.

A pamphlet, containing directions, letters from distinguished individuals, and documentary evidences from the physicians of the hospital of Hayana, Island of Cuba, &c., will accompany the remedy.

These speak volumes in its praise, and publicity is only required to render it as popular as it is benefical. Address,

To all persons afficied with Gravel.

Mr. J. F. Cowas:—Dear sir:—i hereby certify that in
the summer of the year 1853, a servant of mine, a boy
about 19 years of age, who had always before this time been stout and of a vigorous constitution, was attacked with gravel. A Physician was called who attended on with gravel. A Physician was called who attended on him for several months, during which time he grew worse daily until he was helpless, and I believe would have died in a few days had it not been for a friend, who advised the use of Cowan's Lithoutriptic. I procured a few bottles, the first of which gave him renef, and in a short time he was able to walk about, and finally fully recovered, since which time he has had no symptoms of said disease, and to all appearance is as healthy as any servant on my plantation. I therefore recommend it to all persons suffering under a like disease, as one of the most certain remedies known.

Given under my hand this August 22d, 1857.5 DANIEL SHELTON; The above case was perfectly cured by 13 bottles of the Lithontriptic, and was one of the worst cases of Gravel that has ever been in this country. Let every female who expects to become a mother

Youvelle, October, 1853.

Iles for \$5. Mr. J. F. Cowan—Dear sir — You will do me the kind! Mr. J. F. Cowan—Dear sir:—You will do me the glad; ness to publish under my certificate the following note that the suffering community may be benefited. I have given birth to nine children, and my life being have given birth to nine children, and my life being have given birth to nine children, and my life being miraculously saved (as I consider) by your medicine I cannot in justice to you and this public withhold my testimony to its many virtues.

I used your Lithontriptic in small portions perhaps once a day, for five months, which dispelled a tirely the flatulent sickness of the stomach and heart-burst which had annoyed me, to an alarming extent in all my former pregnancies. When I was confined I took about two wine glasses full of the same medicine, which gave me an easier delivery by a great deal than I ever had before. Nor is this all, I have seen it tried in one case, and heard from a respectable source in another case, that your Lithon triptic was tried in, and the Midwife with others in at attendance were thoroughly convinced that the pain of attendance were thoroughly convinced that the pain of the delivery was very much leasened by its use. would say to all my sex that expect to be mothers, no to be without your invaluable inedicine during pregnancy, and particularly at the time of confinement, as it has a marked tendency to relax the system, consequently the pain of labor is much diminished; and further my Physicians and Midwife both said that I had dropsy of June which years, and I believe the disease is entirely removed. Sir, I do this that the sufferings of very many of my

sex may be allevated if they can only overcome their prejudices so much as to try the Lithoutripue. If any

Johnston, England, and observing the nature of the disease in allists stages, during a sejourn in the southern and western portions of the United States, where it provals to a greater extent than elsewhere, procured from South America, certain roots and herbs, from which he prepared an "Elixir," which, after eighteen years' use in private practice, has proved itself more

ponents, to a number of Physicians of Philadelphia, a-mong whom were the late less Joseph Hartshorne and J. C. Morton, it has received their entire approval, and many of the Medical Faculty are now not only prescribing it for their patients, but are using it themselves personally, and in their families. As a tonic, it is one qualled, and its properties are of so invigorating a na-ture, that it is given with perfect safety and success to ture, that it is given with perfect safety and success to the most tender infants.

The "Elixir" is very gradual, but certain in its action upon the organs of digestion, the increased secretions of the liver, pancreas and mucus membrane of the stomach, and requires that only one dose be taken in twenty four hours; for confirmed by spepsy, can only be cared by gradually restoring the organs of digestion to a healthy state. The great success met with in caring the most aggravated cases of byspepsy, accompanied sometimes with a high grade of hypochondriasis, has established the most unbounded confidence in the cursaitys properties of this "Elixir." in corroboration of which, read the following testimonials:—
